

Why Online Trading

Do you want access to the same market news, forecast tools and analyst reports that professional stock brokers have? Nobody has as much stake in the future of your investment portfolio as you, so it's important to become a confident and informed investor. With a good online stock trading service, you can learn everything you need to know to become a smart investor, and buy and sell stocks online.

ICML provides to its clients an advanced friendly online trading platform. It is equipped with powerful trading features, easily accessible and supported with real time rates, research and guidance to make the right investment decisions.

Invest Capital Markets Limited brings unique, insightful analysis on stock related information providing you good understanding of the stock's worth.
